

AMENDMENTS TO THE CLAIMS:

The listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) Take-apart picnic grill comprising:

two hollow profiles adapted to be disposed parallel to each other,

a plurality of rods to connect the two hollow profiles so as to form a grilling surface, and

the hollow profiles including first and second tubes respectively, each with a diameter, the diameter of the first tube being sufficiently larger than the diameter of the second tube to allow the second tube with the smaller diameter to be inserted inside the first tube with the larger diameter for transport purposes,

wherein

one of the tubes has holes in a side facing the other tube to accommodate one end of the rods serving as the grilling surface,

a top quarter of a circumference of the other tube facing the one tube has slots to match the number of holes for accommodating opposite ends of the rods such that the opposite ends of the rods cannot be lifted vertically out of the slots of the other tube, and

two connecting rods to connect the two tubes so as to run through holes in the two opposite tube walls at the ends of the tubes, each of said connecting rods being provided with a tightening arrangement for pulling together the two tubes to form a stable grilling surface.

2. (Currently Amended) The picnic grill of claim 1, wherein the second tube with the smaller diameter has an inner diameter which is sized in such a way as to accommodate all other parts of the grill.

3. (Canceled)

4. (Currently Amended) Take-apart ~~The picnic grill of claim 1,~~ comprising:

two hollow profiles adapted to be disposed parallel to each other,

a plurality of rods to connect the two hollow profiles so as to form a grilling surface, and

the hollow profiles including first and second tubes respectively, each with a diameter, the diameter of the first tube being sufficiently larger than the diameter of the second tube to allow the second tube with the smaller diameter to be inserted inside the first tube with the larger diameter for transport purposes,

wherein:

one of tubes has holes in a side facing the other tube to accommodate one end of the rods which form the grilling surface, and

the other tube includes:

an unbroken longitudinal slit on a side facing the one tube, and

slots in one edge of the slit in which to place opposite ends of rods, and

two connecting rods to connect the two tubes so as to run through holes in the two opposite tube walls at the ends of the tubes, each of said connecting rods being provided with a tightening arrangement for pulling together the two tubes to form a stable grilling surface.

5. (Canceled)

6. (Canceled)

7. (Currently Amended) The picnic grill of claim 1, further comprising a notch at an end edge of one of the tubes for cleaning the rods which form the grilling surface.

8. (Currently Amended) The picnic grill of ~~one~~ claim 1, further comprising caps for sealing both ends of the first tube with the larger diameter.
9. (Currently Amended) The picnic grill of ~~one of~~ claim 1, wherein the first tube with the larger diameter is sealed at one end and further comprising a cap for closing off the other end of the first tube.
10. (Previously Presented) The picnic grill of claim 1, wherein all parts of the picnic grill are made from stainless steel.
11. (Previously Presented) The picnic grill of claim 1, wherein the tubes each have a circle cylindrical cross section.
12. (New) The picnic grill of claim 4, wherein the second tube with the smaller diameter has an inner diameter which is sized in such a way as to accommodate all other parts of the grill.
13. (New) The picnic grill of claim 4, further comprising a notch at an end of one of the tubes for cleaning the rods which form the grilling surface.

14. (New) The picnic grill of claim 4, further comprising caps for sealing both ends of the first tube with the larger diameter.
15. (New) The picnic grill of claim 4, wherein the first tube with the larger diameter is sealed at one end and further comprising a cap for closing off the other end of the first tube.
16. (New) The picnic grill of claim 4, wherein all parts of the picnic grill are made from stainless steel.
17. (New) The picnic grill of claim 4, wherein the tubes each have a circle cylindrical cross section.
